

The TEK - It couldn't be more simple!

Description

The revolutionary magnetic loading system simplifies the process installing a graphic into the stand. It eliminates the fear of removing the pin prematurely and requiring the stand to be taken apart to fix the tension. The TEK is like a cartridge system allowing graphics to be easily interchanged. With the simple turn of a key, tension is applied. By pressing a button, the tension can be retracted. Our system is versatile and most importantly simple.

Specifications

Finish	Silver or Black
Width	34"
Height	32" - 94"
Weight	9 lbs.
Graphic Area	33.5" x 32" - 94"
Media Thickness	Max 10 mil

Advantages

-  Magnetic Loading
-  Adjustable Tension
-  Adjustable Height
-  Clamp Top Rail
-  *Lifetime Warranty

Lifetime Warranty
